PRODUCT SPOTLIGHT - SIGNATURE EDITION BOARD

Available in the models 109T, 108T or the 809T as new production or as an upgrade!

This Audio board featuring transparent 0.093 thick board, 100% gold plated traces inside and on the surface, Teflon by-pass caps, premium grade Cryo-treated and matched Telefunken Black Diamond tubes and matched premium resistors optimizes the sound of your tuner with the highest quality of components.

HAVE AN OLDER PRODUCT THAT NEEDS UPDATING

It is our goal to serve our customers for the long term. We still service our original FT101 tuners we introduced in 1985 and if you still have one we will take it on trade against any of our current line. We pride ourselves on not letting our products go obsolete without offering an upgrade or trade-in path
