MAGNUM DYNALAB - ICONIC CANADIAN

Jim Richards of Magnum Dynalab has finally decided to 'TUNE-OUT'.

After many years as the president and driving force behind Magnum Dynalab, Jim is semi-retiring and passing the torch.

Colquhoun Audio Labs is pleased to announce that we will be carrying the torch forward for this iconic Canadian company. All manufacturing, sales and service will now be part of our Canadian operation in Peterborough and Dwight Ontario. Colquhoun Audio is currently the owner/operators of both Bryston Ltd. and Axiom Audio.

Jim will be helping with the transition over the next two years and we look forward to announcing some of the new products he has been developing recently designated the 'DYNAMYTE SERIES'.

If you wish to get in touch with Bryston or Jim:
